

INTERNATIONAL RESEARCH & KEY PUBLICATIONS

Below you will find a selection of important reports and noteworthy research with key findings for the Lived Experience workforce. The research featured here has been led by credible Lived Experience researchers, or effectively presents findings on issues crucial to the Lived Experience workforce. The WHO report provides policy implications for development of the Lived Experience workforce. Links to summaries and/or full-length texts are provided below. This list will grow over time and is not intended to be exhaustive, rather to cover critical themes and feature ground-breaking work.
